Introduction

Trojan Security was founded by Ivan Mariacher, who began his career as an SIA-approved door supervisor in some of London's most challenging and renowned venues. Trojan was founded on the belief that the security industry could be better—more responsive, more tailored, and more effective.

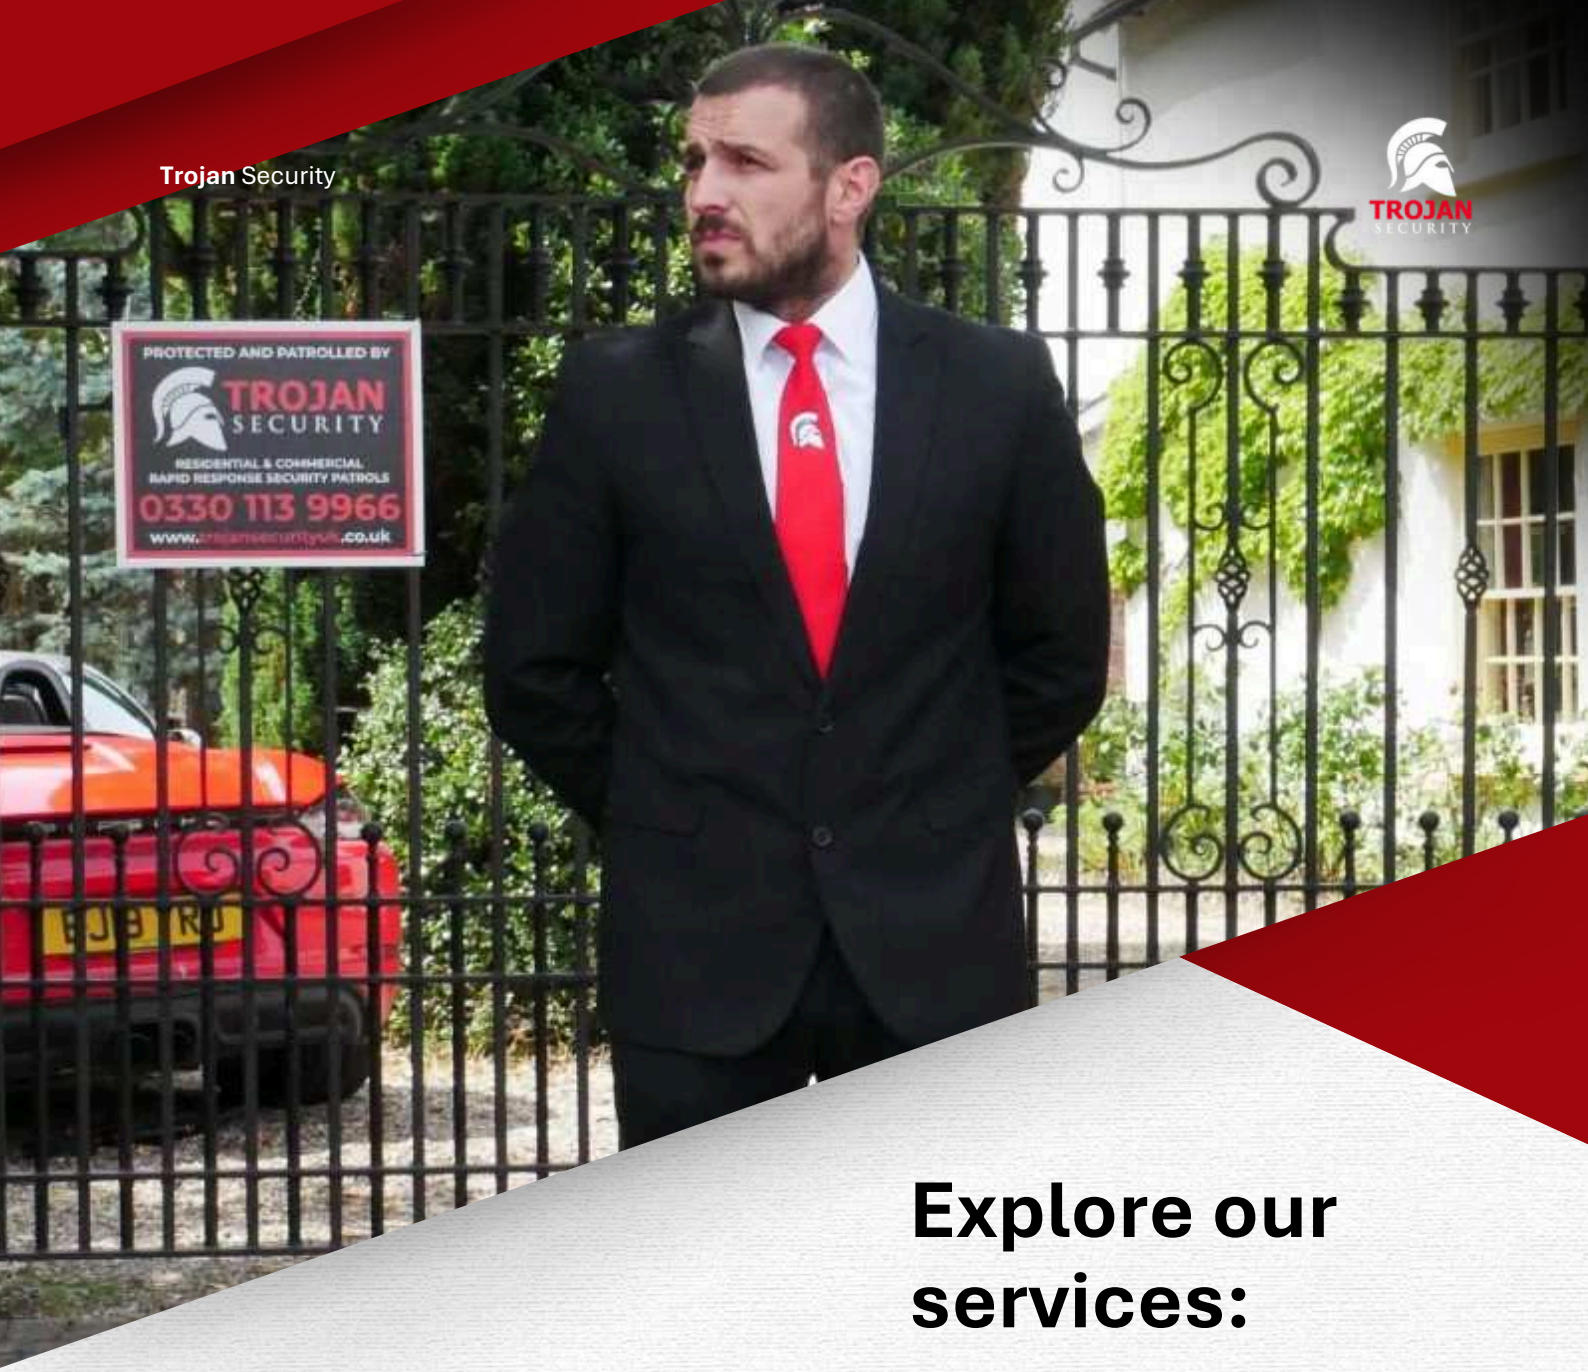

Our mission is to provide custom, bespoke security solutions that meet the unique needs of every client, combining cutting-edge technology and highly trained operatives, equipped with the skills to patrol and protect any event, premises, or individual you require; all while upholding the highest standards of adaptability, safety, and security.

Ivan Mariacher,
Managing Director, Trojan Security

"We strive for high performance and high integrity from all our employees as well as everyone with whom we do business. It is never acceptable to compromise our values or integrity to achieve our business objectives. We are committed as an organisation to always doing the right thing with no exceptions."

Explore our services:

Mobile Patrols

Our Mobile Patrols offer a proactive security solution, safeguarding your property, vehicles, and loved ones. In times of limited police resources, our visible presence deters criminal activity effectively.

Rapid Response

For those seeking immediate protection, our Rapid Response teams are always ready to act, ensuring swift action when needed most, we offer comprehensive services designed to address a variety of security concerns.

CCTV Monitoring

Our CCTV Monitoring service offers comprehensive, round-the-clock surveillance to protect your property, acting as a powerful deterrent against criminal activity. Our trained professionals constantly monitor your premises, enhancing the security of your property.

Explore our services:

Close Protection

Close protection involves providing tailored, high-quality bodyguard services to ensure clients' safety and peace of mind. Our highly skilled professionals are prepared to handle any challenge with discretion and expertise.

Door Supervision

Our Door Supervision services take a customer-centric approach, ensuring our personnel understand the unique requirements of your site from the moment of mobilisation.

Events & Festivals

We provide comprehensive security, ensuring your event runs safely and smoothly while you focus on delivering an unforgettable experience. Our skilled, approachable team adapts measures to suit your venue and needs.

Explore our services:

Anti-Social Behaviour

We collaborate with local authorities and community groups to provide tailored solutions for each area. Our proactive ASB patrols offer vital monitoring, deterrence, and reassurance to residents and businesses.

Concierge & Corporate

Our Security Industry Licenced corporate and concierge guards undergo thorough background checks to ensure top-tier service, giving you peace of mind to focus on growing your business.

Key Holding & Alarm Response

Our Key Holding & Alarm Response service provides 24/7 protection for homes and businesses, ensuring swift, secure responses to alarm activations and incidents. We conduct thorough property checks, re-secure premises, and provide detailed reports to keep you informed and at ease.

Innovations

01 PID (Solo Site Detector)

The Perimeter Intruder Detection System (PIDS) offers autonomous, AI-powered surveillance with key features like HD motion-triggered cameras, AI threat recognition, 24/7 monitoring, and 4G/3G connectivity. It is easy to install, requires no mains power, and operates up to 400 days on battery or solar power.

03 CCTV AI

Trojan's next-gen Crowd Intelligence CCTV for stadiums and events uses AI-driven video analytics to optimise security, crowd management, and fan experience. Integrated with existing systems, it offers real-time data for improved safety, efficiency, and new revenue opportunities.

02 CCTV Tower

CCTV Towers provide a scalable, self-sufficient surveillance solution, powered by batteries and solar energy. These weatherproof towers communicate via the mobile network and feature remote sensors for real-time activity detection. Equipped with pan, zoom, rotate, and infrared capabilities, they offer 24/7 monitoring, ensuring complete coverage day or night

Innovations

04 Drones

Drones play a pivotal role in enhancing event security, providing real-time surveillance and quick response capabilities. They offer an aerial advantage that helps security teams manage large crowds, detect incidents, and ensure smooth event operations.

06 Digital Reporting

Digital reporting enhances security services by improving communication, efficiency, and transparency, offering real-time insights and optimising performance. This shift streamlines processes, boosts service quality, and ensures compliance.

05 Intel Systems

Intel Systems is a robust critical event management platform that connects teams and estates, enhancing risk management and client satisfaction. For staff, contractors, and managers in high-risk environments, our platform offers peace of mind by ensuring effective emergency response.

Hear it from Our Clients

I fully support the work Trojan have done for Southwark and would not hesitate to recommend.

- SOUTHWARK COUNCIL

A highly robust and professional company and would not hesitate to procure this companies services in the future.

- ENFIELD COUNCIL

Excellent service. We use Trojan for both domestic and commercial security and their service is absolutely superb. Highly recommended.

- MAISON RESIDENTIAL LTD
